## WE'RE DONE PAYING THE PRICE

Since former President Trump appointed three justices to the Supreme Court, the MAGA Court has struck down abortion rights, emboldened major corporations to challenge workers' organizing power, helped big oil further pollute the water we drink, made it harder to keep our communities safe from gun violence, and so much more. Now, the hand-picked justices are threatening to further their *relentless* power grab – rewriting the rules to help the ultra rich and powerful get richer and more powerful – leaving us to pay the price.

**We deserve better and better is possible.**

## POWER BACK TO THE PEOPLE

Congress can fix the Supreme Court. That means our members of Congress have a choice to make: Stand with us, their constituents, by committing to fix the broken Supreme Court OR Stand with the MAGA justices by enabling their *relentless* power grab to do more harm to our communities.

We, the people, have power in our collective voice.  
It's time we use it to ask our members of Congress:
