# WE'RE DONE PAYING THE PRICE OF THE MAGA SUPREME COURT'S RELENTLESS POWER GRAB

Since then-President Trump appointed three justices to the Supreme Court, the MAGA supermajority has eliminated our right to abortion, made it harder to prevent school shootings, allowed massive corporations to pollute our air and water, struck down student loan relief, helped politicians suppress our votes, and so much more — all while accepting lavish 'gifts' from the network of right-

wing mega-donors, strategists, and politicians who helped secure their seats.

Now, the hand-picked justices are threatening to take even more power to rewrite the rules in favor of special interests, billionaires, and major corporations — helping the rich get richer and the powerful gain more power — at the expense of the American people.

## WE DESERVE BETTER

We deserve a Court that serves as the protector of our democracy and the guardian of our fundamental freedoms — that affirms and protects our freedom to make our own health care decisions, including abortion care; our freedom to build our families with who we love and know that we will have equal access to care for each other and our children; our freedom to be heard at the ballot box and in the workplace; our freedom to live in safety — free from gun violence and polluted drinking water. We deserve a Court that puts the American people, our freedoms and our democracy, above the profits and political agendas of an elite few.

## BETTER IS POSSIBLE

That Court can be a reality if we use our voices and hold Congress accountable to using its authority to act.

Who gets to sit on the Court is not inevitable, the amount of unchecked power those justices have is not inevitable, and how our lawmakers respond to the justices' harm is not inevitable — that's up to our elected leaders. That means we, the people, have a critical role to play: We need to make clear that we are paying attention, leverage our collective voice, and demand those entrusted to represent us fight for our freedoms by committing to fix the Court.

## CONGRESS: WHO DO YOU STAND WITH?

Congress has a choice to make: Stand with us, their constituents, by committing to fix the broken Supreme Court OR Stand with the MAGA justices by enabling their *relentless power grab* to do more harm to our communities.
